National Park

Le col de Peyrelue

This relatively easy hike is the only one that, with such little climbing, offers such a vast, grandiose scenery including the highest peaks on the border with Spain

D From the car park, take the path on the right which starts just after the Pont de Peyrelue bridge. Climb up following the zig-zags.

lh00 | **712825 E - 4743613 N** At the Cabane de Peyrelue, continue straight ahead and almost flat to the south. Stay more or less in the stream bed, passing the Cabane(hut) Dous Bouès de Peyrelue on your left.

Walk to a large wetland area, with a view into Spain.

lh30 | **2 712742 E - 4742204 N** From the Col de Peyrelue or Port Vieux de Sallent at the border, come back using the same path.

Cara sur del Pic du Midi d'Ossau

Don't miss:

- Watching isards and marmots
- The flora of the Pyrenees (blue irises in July).

Note:

- National Park, special regulations.
- Do not leave rubbish in the hut.
- The hut is occupied by shepherds in summer.

Golden Eagle

With its 2.20 m wingspan, this hunter's flight is unmistakable. It skims the slopes, taking marmots, hares and partridges by surprise. It nests under the overhangs of isolated cliffs. Winter is a critical time for the bird as food is scarce and it must raise its young. Avalanches and the cold weather fortunately provide them with isard carcasses. In the Ossau Valley, there are only two couples. Watching the king of birds is a rare, fleeting opportunity: a dot high in the sky that disappears in a dive before you can even get out your binoculars!
